To Whom It May Concern:

The purpose of writing this letter is to recommend the services of Opportunity Workshop. Their services are quite satisfactory and their representative, Tom Miller, is very reliable. They abide by their time table and price their services accordingly.

We partnered with Opportunity in February 2002. Some of the many services they have provided to us include:

Assembling Decoupled Hummingbird feeders

Adding nectar bags to Hummingbird feeders

Packaged various electric fence items

Made displays for various customers

Packaged nails and washer kits for our Minnesota production

Exchanged old packaging on various items as new packaging was adopted

We have been completely satisfied with this company. Their main goal is customer satisfaction which is achieved with their in-depth quality control.

Melinda Brenneman
